\<About />

I am a **Full Stack Developer** passionate about technological innovation and complex problem-solving. My professional trajectory is marked by a strategic transition from operational management to software engineering, giving me a unique vision: the ability to align technical excellence with business objectives.

With solid experience in leadership and process optimization, I bring a results-oriented mindset, organization, and agile methodologies to software development. I am naturally self-taught, having built a robust foundation in modern technologies (such as React, Java Spring and Cloud) even before starting my formal academic education.

Currently, I seek challenging opportunities where I can apply my knowledge in web and mobile development to create scalable, intuitive solutions that generate real impact for users and the organization.

function professional_experience ()

AI Trainer & Code Reviewer   Jun 2024 – Jun 2025

>_ Outlier AI - Remote

```
> Training and fine-tuning of LLMs with RLHF.
> Code Review of AI-generated Python and Java scripts.
> Development of unit tests for validation.
> Refining technical datasets.
```

Admin Assistant & IT Support   Jan 2022 – Dec 2023

🏢 Casa Design - Itabuna, BA

- Spreadsheet automation and inventory control.
- N1 technical support for hardware and software.
- Document flow optimization (40% reduction in search time).

Operations Manager   Jan 2018 – Dec 2021

💼 LCC - Camacan, BA

- Supply Chain and Logistics Management.
- Implementation of Lean methodology (15% cost reduction).
- Data analysis for strategic decisions.

class Academic_Education

Software_Engineering.Bachelor `In Progress (2026)`
Descomplica Faculdade Digital

Focus on active methodologies, practical projects, and robust software development.

CORE_MODULES:
> Data Structures
> Software Architecture
> Requirements Engineering
> Information Security

FOCUS:
> Agile Development (Scrum)
> Integrative Projects
> Full Stack Development

```
import { Certifications } from 'education'
